

Reflective Tape Properties

FLAME RESISTANT REFLECTIVE TAPE **Backing** **Domestic or Industrial wash**

XM-6007C Hex **Segmented Heat transfer Silver**

Description

Introducing the new XM-6007C Hex Reflective Tape for high visibility clothing. With its innovative segmented Hex design, this tape provides enhanced visibility from multiple angles, increasing safety in low-light conditions.

The XM-6007C Hex tape is also designed to withstand washing at temperatures up to 50x60°C, meeting the EN 20471 standard. Additionally, the tape can be dry cleaned up to EN 20471 30 dry cleans.

Product Construction

Features extra breathability due to segmented design.

It is recommended to use for EN 20471 knit clothing to have safe, functional and comfortable workwear.

Product Detailed Information

Material	100% Polyester
Finish	-
Colour	Silver
Industrial wash	-
Roll, Width	50 mm
Roll, Length	100 meters
Roll, Weight	1.55 kgs

Product Certifications

NFPA 2112	-
ANSI 107	-
CSA Z96	-
EN 20471	50x60°C ISO 6330 30x dry clean ISO 3175
EN 469	-
EN 15384	-
OEKO-TEX 100	Class 2
Certificate of Test	Aitex (Spain)

Shelf Life

Keep in cool dry place, with no direct sunlight. Use the product during 12 months from the date of purchase.

Care Instructions

	Wash	Machine Wash Warm, 60°C
	Bleach	Do not bleach
	Dry	Tumble Dry Low
	Dry-clean	Do not dry clean
	Iron	Iron at low temperature, 110°C
